

Privacy Notice for Parents – Use of your child’s personal data

Under data protection law, individuals have a right to be informed about how the school uses any personal data that we hold about them. We comply with this right by providing ‘privacy notices’ (sometimes called ‘fair processing notices’) to individuals where we are processing their personal data.

This privacy notice explains how we collect, store and use personal data about parents to the academy in line with the General Data Protection Regulation (GDPR) and the Data Protection Act 2018.

We, Thorpe Primary School, are the ‘data controller’ for the purposes of data protection law. This means that we are responsible for deciding how we hold and use personal information about you.

Our Data Protection Officer (DPO) is Mr D Harvey-Hill and can be contacted in writing:

Our legal basis for using this data

We only collect and use pupils' personal data when the law allows us to. Most commonly, we process it where:

- ✓ We need to comply with a legal obligation
- ✓ We need it to perform an official task in the public interest

Less commonly, we may also process pupils' personal data in situations where:

- ✓ We have obtained consent to use it in a certain way
- ✓ We need to protect the individual's vital interests (or someone else's interests)

Where we have obtained consent to use pupils' personal data, this consent can be withdrawn at any time. We will make this clear when we ask for consent, and explain how consent can be withdrawn. Some of the reasons listed above for collecting and using pupils' personal data overlap, and there may be several grounds which justify our use of this data.

Collecting this information

Whilst the majority of information we collect about pupils is mandatory, there is some information which can be provided voluntarily. Whenever we seek to collect information from you or your child, we make it clear whether providing it is mandatory or optional. If it is mandatory, we will explain the possible consequences of not complying.

How we store this data

We keep personal information about pupils while they are attending our school. We may also keep it beyond their attendance at our school if this is necessary in order to comply with our legal obligations.

Data sharing

We do not share information about pupils with any third party without consent unless the law and our policies allow us to do so. Where it is legally required or necessary (and it complies with data protection law) we may share personal information about pupils with:

- ✓ Our local authority, to meet our legal duties to share certain information with it, such as concerns about students' safety and exclusions
- ✓ The Department for Education, to meet statutory obligations to provide them with information, especially regarding data returns such as census

- ✓ Police forces, courts, tribunals, in order to uphold law and order
- ✓ Professional bodies, to verify information for legal purposes

National Pupil Database

We are required to provide information about pupils to the Department for Education as part of statutory data collections such as the school census. Some of this information is then stored in the National Pupil Database, which is owned and managed by the Department for Education and provides evidence on school performance to inform research. The database is held electronically so it can easily be turned into statistics. The information is securely collected from a range of sources, including schools, local authorities and exam boards.

The Department for Education may share information from the NPD with other organisations which promote children's education or wellbeing in England. Such organisations must agree to strict terms and conditions about how they will use the data. You can contact the Department for Education with any questions.

Transferring data internationally

Where we transfer personal data to a country or territory outside the European Economic Area, we will do so in accordance with data protection law.

Parents and students' rights regarding personal data

Individuals have a right to make a 'subject access request' to gain access to personal information that the school holds about them. Parents/carers can make a request with respect to their child's data where the child is not considered mature enough to understand their rights over their own data (usually under the age of 12), or where the child has provided consent.

If you make a subject access request, and if we do hold information about you or your child, we will:

- ✓ Give you a description of it
- ✓ Tell you why we are holding and processing it, and how long we will keep it for
- ✓ Explain where we got it from, if not from you or your child
- ✓ Tell you who it has been, or will be, shared with
- ✓ Let you know whether any automated decision making is being applied to the data, and any consequences of this
- ✓ Give you a copy of the information in an intelligible form

Individuals also have the right for their personal information to be transmitted electronically to another organisation in certain circumstances. If you would like to make a request please contact our Data Protection Officer, as above.

Other rights

Under data protection law, individuals have certain rights regarding how their personal data is used and kept safe, including the right to:

- ✓ Object to the use of personal data if it would cause, or is causing, damage or distress
- ✓ Prevent it being used to send direct marketing
- ✓ Object to decisions being taken by automated means (by a computer or machine rather than by a person)
- ✓ In certain circumstances, have inaccurate personal data corrected, deleted or destroyed, or restrict processing
- ✓ Claim compensation for damages caused by a breach of the data protection regulations

To exercise any of these rights, please contact our Data Protection Officer, as above.

Complaints

We take any complaints regarding our collection and use of personal data very seriously. If you think that our collection or use of personal information is unfair, misleading or inappropriate, or have any other concern about our data processing, please raise this with us in the first instance by writing to our Data Protection Officer, as above.
